

## Lithofin ALGEX Special Remover

### Description

A special product from the LITHOFIN-Range. Lithofin ALGEX is a water-soluble cleaning concentrate based on high quality surfactants. The product is neutral and free of chlorine and acid.

### Properties

Self-actingly removes all kinds of common and environmental dirt caused by plants and trees. Slippery green deposits can also be removed. Due to its characteristics, Lithofin ALGEX also has a preventive effect, keeping surfaces clear of new green deposits for up to one year.

#### Technical Data:

Density: 1,0 g/cm<sup>3</sup>

pH-Value: ca. 8 (concentrate)

Appearance: clear, light blue

Odour: perfumed

Solubility in Water: very good, complete

### Field of Use

For cleaning all outdoor areas, such as stairs, paths and terraces, walls, grave stones, roofs, wooden fences, etc. Ideally suited for preventive treatment against green, slippery deposits.

### Directions for Use

Lithofin ALGEX should be diluted with water approx. 1:10 (when used as a preventive treatment 1:20) and distributed on the surface using a watering-can or a sprayer. After application, the areas should not be rained on for at least 4 hours. The surfaces will become bright, clean and free of deposits within a few days. Surface residues can be washed off with water or they will disappear when it rains.

Please Note: Lithofin ALGEX is not harmful for plants, however, they should not be sprayed or should be washed off immediately.

Application Temperature: 10 to 25°C.

Do not use on warm surfaces.

Coverage: approx. 20 to 50m<sup>2</sup> when using a watering-can; up to 150m<sup>2</sup> when using a sprayer.

### Storage

closed cool and dry. Up to five years.

### Advice

In case of stubborn dirt, if the deposits have turned black, clean the surface with Lithofin MN Outdoor Cleaner. Spray Lithofin ALGEX as a preventive treatment a few days after cleaning. Repeat this preventive treatment once a year to maintain the areas appearance year-round.

### Further Treatment

Impregnating the surface with Lithofin SPLASH-STOP will render it resistant to the penetration of water, thereby greatly reducing the risk of dirt accumulation and alga formation.

### Environmental Protection

The contained surfactants are biologically degradable according to EU-regulations. Does not contain any phosphates.

Disposal: diluted product may be added to waste water. Containers are made of environmentally friendly polyethylene (PE). Clean containers can be recycled through collection system.

### Safety

Contents: kationic surfactants (5% to 15%), auxilliary agents.

General Safety Information: Causes burns. Keep locked up and out of the reach of children. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Wear suitable protective clothing, gloves and eye/face protection. In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

Additional Information is listed on the Material Safety Data Sheet.

ADR2003: not a dangerous good.

### Packaging

1 litre bottle with child-proof cap (10 per box)

5 litre canister (2 per box)

Please Note: statements concerning environmental and safety issues refer to the product as delivered (concentrated).

This information should be considered to be informal and non-binding. The products must be used according to local conditions and materials. Where no previous experience is available, or in cases of doubt, test the product in an inconspicuous area. (GB1.09gps/8.06)
