

E>3FF76 ECG3D7 76976

Slatted panels consist of 44mm x 18mm
recessed slats with a gap size of 7mm.

These horizontal slatted panels are made from quality
western red cedar and are designed to create a seamless finish
with no visible joints.

Our unique Cedar slatted panels allow for maximum privacy and
can be used in conjunction with our glass panels. These panels are used in
our glass and aluminum partitions for our panels and
3-part system can be a great choice for all
environments.
