CHELMER VALLEY

[About Us]

Chelmer Valley specialises in the supply of high-quality handmade clay pavers, bricks and stone pavers, crafted to enhance a variety of outdoor spaces with timeless beauty and durability.

Perfect for patios, paths, and driveways, our brick pavers combine traditional craftsmanship with modern design needs.

With a wide range of styles, colours, and finishes, we provide sustainable pavers that are equally at home in both residential and commercial spaces, providing exceptional paving and hard landscaping solutions that not only look great but also stand the test of time.

ABBAY DARK MULTI

CHELMER VALLEY

[Why Clay Is Superior]

Clay pavers offer unmatched benefits compared to concrete, making them the ideal choice for patios, paths, and driveways. Their extensive range of vibrant, natural colours remains unfaded over time, ensuring enduring beauty that concrete cannot match. Crafted from natural materials, clay pavers are both sustainable and environmentally friendly, offering an eco-conscious solution for any project.

Extensive range of colours that don't fade, unlike concrete

Sustainable and Environmentally Friendly

Long lifespan of over 100 years

Low maintenance and stain resistant

With a lifespan exceeding 100 years, they provide exceptional durability, while their low-maintenance and stain-resistant properties save time and effort. Unlike concrete, clay pavers require no sealing, making them a hassle-free, long-term investment in style and performance. Choose clay for timeless appeal and lasting quality.

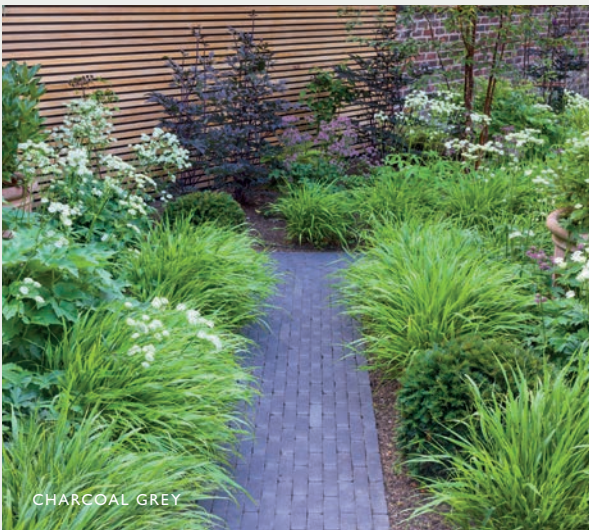

Perfect for Patios & Paths

EXTENSIVE COLOUR RANGE

Clay pavers are a versatile and beautiful choice for patios and paths, offering a combination of timeless aesthetics, durability, and design flexibility.

With an extensive range of colours, sizes, and styles, they can suit both modern and traditional spaces.

VARIETY OF CHOICE

You can even mix colours for a unique blend that complements your property.

The ability to choose from a variety of laying patterns—such as basketweave, herringbone, and running bond—adds a personal touch to any project.

BESPOKE

For those seeking something truly unique, bespoke patterns can be created by combining different colours, allowing you to inject personality and individuality into your space.

Kerb Appeal for your Driveway

THE PRACTICAL CHOICE

For driveways, clay pavers are a practical and attractive option. Natural fade-resistant colours and hard-wearing qualities ensure they retain their colour for decades, even with frequent use.

Excellent stain resistance means that clay is well-suited to high-traffic areas, while the wide range of colours and styles guarantees a solution to enhance any property.

THE IDEAL CHOICE

Unlike concrete blocks, clay pavers derive their vibrant colours from natural clay, ensuring they remain bright and true over time. Additionally, clay's slip-resistant surface maintains its safety, unlike concrete, which can become polished and slippery with wear.

With their long-lasting character, clay pavers offer both environmental and practical benefits, making them the ideal choice for driveways.
